4 GUARANTEE

GUARANTEE FOR EVERYTHING FROM A SINGLE SOURCE:

- ➔ Implants
- ➔ Digital planning and drilling guides
- ➔ Healing caps, models Analogues & temporary restorations
- ➔ Final dental technical work

SPECIAL NOTES ON ACCEPTING ICX-COMplete® CASES: In certain cases – particularly for full upper and lower jaw restorations and free-end restorations – ICX-COMplete® can only be offered to a limited extent. In such cases, we work closely with a partner or commercial laboratory, particularly for: Aesthetic wax-up fittings · bite registrations. Even if external laboratories have to be involved, the following applies: If the case is accepted within the ICX-COMplete® programme, the ICX-COMplete® guarantee remains fully valid.

GUARANTEE CONDITIONS: The ICX-COMplete® guarantee applies exclusively in conjunction with ICX implants and requires, that the work be carried out in accordance with the material-specific specifications of ICX-DENTA5. The scope of the guarantee replacement depends on the proportion of the work carried out by ICX-DENTA5. Full replacement will only be provided for work carried out entirely by ICX-DENTA5. The guarantee is only valid if the patient has attended the agreed 6-month check-up appointments continuously and without interruption and these have been entered in full in the personal implant passport.

15-YEAR ICX-COMplete® GUARANTEE: The 15-year ICX-COMplete® guarantee applies exclusively if the following conditions are met: Only original medentis products are used, treatment is based on digital planning with the ICX-MAGELLAN system, using Magellan guide templates, and the entire treatment process is implemented completely in accordance with this digital workflow 'from A to Z'.
